

# 29 Crochet Slippers Pattern

## Materials Needed & Measurements:

- **Yarn Suggested:** Noro Kureyon
- **Yarn Weight:** Aran (8 wpi)
- **Gauge:** 20 stitches and 20 rows = 10 cm in single crochet
- **Hook Size:** 3.5 mm (E)
- **Yardage:** 220–330 yards (201–302 meters)
- **Finished Sizes:**
  - Length: 10"/25.5 cm or 10½"/27 cm
  - Width at ball of foot: 4¾"/12 cm

## Abbreviations:

- **Ch:** Chain
- **Sc:** Single crochet
- **Sc2tog:** Single crochet two stitches together (decrease)

- **Sl st:** Slip stitch
- **St(s):** Stitch(es)
- **Rep:** Repeat
- **Rnd:** Round
- **RS:** Right side
- **WS:** Wrong side

### Step by Step Process for Stitching #29 Crochet Slippers Pattern:

#### Step 1: Foundation Chain

- **Ch 30 (32)** for the desired size (choose based on foot length).
  - This chain will determine the length of your slipper sole. Ensure the chain is loose enough to avoid curling.
- Make sure the chain is not twisted before moving to the next step.

#### Step 2: Base Row

- **Row 1:**
  - Starting in the second chain from the hook, work sc across the foundation chain.
  - At the end of the row, you should have 29 (31) sts.
  - **Ch 1**, turn.

*Tip:* The base row sets the structure of the slipper; keep your stitches consistent for even shaping.

### **Step 3: Body of the Slipper**

- **Rows 2-25 (27):**
  - Work **sc** in each stitch across the row.
  - At the end of each row, **ch 1**, turn.
  - Repeat this process for the number of rows required, based on your chosen size.

*Tip:* Measure the piece as you go to ensure it aligns with your foot length. Use a stitch marker if needed to track your row count.

#### **Step 4: Shaping the Toe**

- **Row 26 (28):**
  - Start decreasing to narrow the toe section.
  - At the beginning of the row, **sc2tog**. Work **sc** in each stitch across until the last two stitches, then **sc2tog** again.
  - **Ch 1**, turn.
- Repeat this process for the next 3-5 rows (or until the toe section fits snugly over your foot).

*Tip:* Adjust the decreases to fit your desired toe shape. The toe should be slightly rounded but not overly tight.

#### **Step 5: Seam the Toe**

- Fold the slipper in half lengthwise with the right sides facing in.
- Using a yarn needle or your hook, seam the toe end using **sl st** or a whipstitch.
  - Insert your hook/needle through both layers, working evenly across the width.
  - Fasten off and weave in the end.

*Tip:* Ensure the seam is sturdy but not bulky to maintain comfort.

### **Step 6: Shaping the Heel**

- Rejoin yarn at the open edge of the heel.
- Work **sc** evenly around the heel edge, decreasing with **sc2tog** at each end of the row to round the heel.
- Repeat for 3-4 rows, or until the heel section fits snugly.

#### **Step 7: Seam the Heel**

- Fold the heel end together and use **sl st** or a whipstitch to close the seam.
- Fasten off and weave in the ends securely.

*Tip:* Ensure the seam lies flat to avoid discomfort when worn.

#### **Step 8: Optional Edging**

- Join yarn at the top opening of the slipper.
- Work 1-2 rounds of **sc** evenly around the opening for a clean and polished edge.
- Fasten off and weave in the ends.

*Tip:* Use a contrasting yarn color for the edging for a decorative touch.

### **Step 9: Final Steps**

- Weave in all loose ends using a yarn needle to secure them.
- Block the slippers by dampening them lightly and shaping them to your foot dimensions. Allow them to dry.

*Tip:* Add non-slip soles or fabric lining for added comfort and durability.

### **Abbreviations Key:**

- **Ch:** Chain
- **Sc:** Single crochet
- **Sc2tog:** Single crochet two stitches together (decrease)
- **Sl st:** Slip stitch

Enjoy making your cozy, customized slippers!
